Instructions   **My submissions**   Discussions

Date	Score	Passed
⌄ **February 27, 2022 7:16 AM CET**	100/100	Yes
myCallback	50/50	Hide grader output

```
All tests passed! Congratulations!
```

train_mnist	50/50	Hide grader output

```
All tests passed! Congratulations!
```

⌄ **February 27, 2022 7:11 AM CET**	96/100	Yes
myCallback	50/50	Hide grader output

```
All tests passed! Congratulations!
```

train_mnist	46/50	Hide grader output

```
Failed test case: first layer of the model has incorrect input shape.
Expected:
(None, 28, 28),
but got:
(32, 28, 28).
```

⌄ **February 27, 2022 7:06 AM CET**	91/100	Yes
myCallback	50/50	Hide grader output

```
All tests passed! Congratulations!
```

train_mnist	41/50	Hide grader output

```
Failed test case: model was not originally trained for 10 epochs.
Expected:
10,
but got:
15.

Failed test case: first layer of the model has incorrect input shape.
Expected:
(None, 28, 28),
but got:
(32, 28, 28).
```
